# PREFACE

Producing policies that will shape the development is possible, as the first priority, by stating the socio-economic picture of the countries/regions in both quantitative and qualitative way. The importance of the dissemination where statistics and indicators are intensively used is increasing more and more so as to follow the developments in time and provide comparisons.

Nowadays, facilitating the comprehension and disseminating of the correct usage of the information is of great importance. In this vein, with “Bilecik Key Figures” publication Bursa Eskisehir Bilecik Development Agency (BEBKA) aims to present summarized indicators and statistics describing Bilecik in more understandable and easily trackable way.

By this work, BEBKA has targeted to make people in Bilecik to be more acquainted with the province including its inner dynamics and to provide comparison of Bilecik on Turkey scale. We hope that such new work for Bilecik will be beneficial to all users.

### 3. DEMOGRAPHY

12

The demographic structure of Turkey shows that it can be seen that 32.35% of the population is under age 20 by the year 2015. This ratio is 26.49% in Bilecik.

Regarding the share of population 65 years and over, 8.25% of the Turkey's total population is at this age group, whereas this figure is 10.83% for Bilecik.

The median age for year 2015 is 31 for Turkey and 33.8 for Bilecik.

### 3. DEMOGRAPHY

### 3. DEMOGRAPHY

#### OLD AGE DEPENDENCY RATIO

#### YOUNG AGE DEPENDENCY RATIO

■ Bilecik ■ Turkey

The age structure of a population is a factor that affects socio economic issues. Old and young dependency indicators represent how much the population aged under the age of 15 and over the age of 65 are dependent on working age population. According to these indicators, policy choices like investments to schools for young people and to health for elderly people are arising.

During the years between 2010 and 2015, the old age dependency ratio is rising, whereas the young age dependency ratio is declining. The old age dependency ratio of Bilecik is above than the Turkey's average, in contrast; the young age dependency ratio is below the national average.
